

Caesarstone Porcelain Maintenance, Use and Care Guidelines

Step-by-Step Care

Everyday Cleaning

1. Wipe the surface with a soft cloth or a non-abrasive scorer dipped in warm water with a mild detergent. Rinse with water, and dry with a soft cloth or paper towel.
2. Always wipe up wet spills to prevent a patina from forming.
3. Check each cleaning product on an inconspicuous area to ensure that it doesn't damage the surface. Patina's build-up may look like a light-coloured stain.
4. Honed and Ultra Rough finishes are more prone to metal marks, fingerprints, and other signs of daily use, which can easily be removed with non-abrasive cleaning products such as CIF cream. Do not polish the surface with a polishing machine.

Stubborn Stains

1. Gently rub the area using a soft cloth or paper towel with an approved cleaner.
2. Clean a larger area in a circular motion than the stain
3. Rinse with water, and dry with a soft cloth or paper towel.

4. Repeat this process if the stain is still visible.

Dried Spills

1. Dried spills and stains should be reanimated with water for several minutes before attempting recommended cleaning methods.
2. Clean the surface with a damp cloth or paper towel.

Metal Marks

1. Rub gently with a latex eraser.
2. Clean the surface with a damp cloth or paper towel.

Rust Marks

1. Place an Astonish Barkeeper's Friend power spray or oxalic acid on a damp cloth. Do not use an abrasive scorer.
2. Wipe away very gently, in a circular motion.
3. Rinse thoroughly with warm water, and dry with a soft cloth or paper towel.
4. Follow these instructions carefully to avoid damaging the surface.
