

QUARTZ SURFACES
SUITABLE FOR INDOOR AND
OUTDOOR USE

IN BELGIUM, WE EMBRACE LIFE. WE SEIZE THE DAY AND ENJOY EVERYTHING LIFE HAS TO OFFER. WE TAKE GREAT PRIDE IN OUR INGENUITY AND CRAFTSMANSHIP. IT'S NOT SURPRISING THAT BELGIAN DELICACIES SUCH AS CHOCOLATES, PRALINES AND TRADITIONALLY BREWED CRAFT BEERS HAVE CAPTURED THE HEARTS OF SO MANY AROUND THE WORLD.

BELGIUM IS ALSO HOME TO DIRESCO, A BELGIAN FAMILY COMPANY THAT BELIEVES WHOLEHEARTEDLY IN PURE QUALITY. FOUNDED BY THE SCHELFHOUT FAMILY IN 2003, DIRESCO IS THE ONLY PRODUCER OF NATURAL QUARTZ COMPOSITE IN NORTHERN EUROPE. DIRESCO CONTINUES TO PRODUCE THE HIGHEST QUALITY QUARTZ SURFACES IN THE WORLD. DIRESCO IS CAPABLE OF FULFILLING VIRTUALLY ANY DEMAND THANKS TO ITS UNPARALLELED PRODUCTION CAPACITY OF MORE THAN 4.000 M² (43,000 SQFT) PER DAY AND ITS WORLDWIDE LOGISTICS NETWORK.

ONE TEAM
INSPIRED BY
NATURE

WHO ARE WE?

Diresco has successfully developed its network through the years. We have distributors around the world. Our clients and installers can count on maximum technical support around the globe. Our ambition is to produce the most exemplary surfaces in the most natural way. We always aim for perfection and provide premium products that can be used effectively in any interior or exterior. By working exclusively with natural components, we are able to produce flawless surfaces and tiles.

Be touched by nature, be touched by Diresco.

DIRK SCHELFHOUT - JOKE SEGERS - JOS BONGERS - BRUNO DE BRANDT

OUR LATEST PRODUCT LINE, WITH THE FESTIVE NAME OF CAVA, ONCE MORE MANAGES TO SURPRISE. AN INNOVATIVE PRODUCTION PROCESS WHEREBY TRANSPARENT D-QUARTZ PARTICLES IN THE QUARTZ COMPOSITE BUBBLE TO THE SURFACE HAS PRODUCED A SPARKLING MATERIAL WITH AN INDUSTRIAL CONCRETE & TRAVERTINE LOOK THAT IS PERFECTLY IN TUNE WITH THE LATEST LIVING AND DESIGN TRENDS.

NEW

A modern outdoor courtyard with a pool, a wooden chair, and concrete walls. The scene is brightly lit, suggesting a sunny day. The pool is in the foreground, and the chair is in the middle ground. The walls are made of a light-colored, textured material, possibly the 'CAVA' product being advertised. The overall aesthetic is clean and minimalist.

**CAVA WILL MAKE
YOUR PROJECT SPARKLE!**

BU030 CAVA CLOUD

BU031 CAVA ICE

BU032 CAVA MOCCA

CAVA: TRENDY YET TIMELESS

With three colourways - Cloud, Mocca and Ice - the Cava line blends effortlessly with all styles and moods. The high-quality workmanship and sophisticated appearance will ensure a timeless, harmonious look. Introduce clean lines to a country-inspired kitchen, add the finishing touch to a sleek interior or an element of luxury to a pure, minimalist design... the possibilities are virtually limitless! Thanks to its versatility, Cava also adds value to any home, office or retail environment, and can even be used as a floor or wall covering. But that is not all. Our new range also has our unique BIO-UV technology which makes it durable and more resistant to sunlight. Have you ever dreamt of having an outdoor kitchen where you can relax with an aperitif and catch the last rays of sunlight? This new Cava range also allows you to take the inside outside, to savour a luxurious 'outdoor living lifestyle.

TERRAZZO®

INSPIRED BY BRAM BOLLEN

THE WORLD OF DESIGN IS NOW INCONCEIVABLE WITHOUT THE CREATIVE SPIRIT AND HAND OF BRAM BOLLEN. INSPIRED BY ARCHITECTURE AND INTERIOR DESIGN, HE DESIGNS THE MOST BEAUTIFUL OUTDOOR FURNITURE AND SURROUNDINGS. HE IS A MASTER OF SIMPLICITY AND HAS A KEEN EYE FOR DETAIL, MAKING HIS DESIGNS FRESH AND CONTEMPORARY.

TERRAZZO & BRAM BOLLEN

PLAN B WAS SET UP BY BRAM BOLLEN BACK IN 2006.
A CREATIVE DESIGN STUDIO, WHERE RENOWNED DESIGN
LABELS AND BRANDS ARE AT THE FOREFRONT.

PURE ELEGANCE

Together with Diresco, Bram Bollen has injected modernity into traditional Terrazzo. New colors, surprising contrasts and unique fragments are the basic ingredients of our Terrazzo range. A color range that connects seamlessly with the natural designs of Diresco. A pure elegance that gives every interior

or exterior a natural and timeless feel. The refined simplicity and detailing of our Terrazzo range allows these designs to be applied in both minimalistic spaces and classically furnished interiors. Terrazzo is a reflection of our rich design past and contemporary character.

A NATURAL SOURCE OF INSPIRATION

We inspire and challenge each other. We spar, exchange ideas, and learn from each other. We strive to strengthen and improve each other. This is what drives us every day at Diresco. Together with architects and designers, we sit around the table, to develop beautiful products and carry out projects.

Visionaries such as Vittorio Simoni share their ideas with us and describe how they shape buildings, houses, interiors, exteriors, and furniture. We look to the future together and think about how we can make the world more beautiful and durable. The way we live is a direct influence on our existence and our wellbeing.

NATURE AT HEART

We love what we do, and we believe what we make is beautiful. That is why we continually invest in developing new technologies and in making our production processes increasingly more sustainable.

We have mastered our trade and genuinely enjoy the magic with which we develop and produce our surfaces. We are inquisitive by nature and as a result we are always looking for ways to further refine our product. Pure and exceptionally refined formulations provide our surfaces with a natural look and feel and a guaranteed everlasting lifespan.

Inspired by the world around us, we provide architects and designers a surface with unlimited value.

OUR REVOLUTIONARY BIO-UV TECHNOLOGY SIGNIFICANTLY REDUCES OUR CO₂ FOOTPRINT

OUR ENTERPRISING SPIRIT IS IN OUR DNA AND DRIVES US TO BE INCREDIBLY INVENTIVE. WHEN IT COMES TO THE DEVELOPMENT OF NEW PRODUCTS AND PRODUCT APPLICATIONS, WE ARE CONSEQUENTLY THE LEADER IN THE MARKETS IN WHICH WE OPERATE. WE ARE FOCUSED, HAVE AN EYE FOR DETAIL AND WORK WITH UNRIVALED DEDICATION ON ACHIEVING NATURAL PERFECTION. WE PLACE STRINGENT DEMANDS ON THE PURITY OF OUR MATERIALS AND PRODUCTS.

Our revolutionary BIO-UV technology was born from our quest for pure perfection. With the aid of 100% plant-based and UV resistant resins, we have produced a completely new generation of ecological quartz composite surfaces that can be bathed in sunshine. Leaving nothing to chance, we had the technical qualities of our BIO-UV technology tested extensively by world-class research institute Intertek. The results exceeded every expectation.

LET THE SUN SHINE!

The test results were outstanding in terms of sustainability, applicability and processing. Alongside our other standard product qualities, our BIO-UV technology guarantees optimum weather resistance. Nothing stands in the way of exterior use, which means our surfaces are a perfect fit for an outdoor kitchen or exterior façade.

Diresco D-Quartz BIO-UV surfaces are comprised of ~90% natural Quartz granulates and ~10% plant-based resins and color pigments. In order to provide architects and designers greater creative freedom, our slab dimensions are 3.18m x 1.55m (125" x 61"). Our surfaces are available in thicknesses of 1.2cm, 2cm or 3cm. They can be supplied in either a poli, velvet or anticato finish.

INTERIOR DESIGN AND ARCHITECTURE ARE BOTH ART FORMS, AND DAILY LIFE CAN OFTEN BE THE SOURCE OF INSPIRATION. NOT ONLY DO DESIGNS NEED TO BE "BEAUTIFUL", THEY NEED TO BE PRACTICAL, DURABLE, TIMELESS AND ADAPTABLE.

**MOST IMPORTANTLY, NEVER
LET ANYONE LIMIT YOU**

Our surfaces can essentially be applied in any conceivable office or home situation. Both inside and outside. Think about the cladding on facades, walls, stairs, floor, (outdoor) kitchens, bathrooms, store interiors, restrooms, closets, counters, tables and/or terrace areas. The products which we make today contribute to a sustainable future. Everlasting but also one hundred percent reusable in new applications. Discover the unlimited possibilities of our quartz composite products.

MARBLE HAS ALWAYS BEEN ONE OF THE MOST POPULAR AND WIDELY USED TYPES OF STONE. IT IS A LIMESTONE THAT IS FORMED UNDER HIGH TEMPERATURES. THE LITERAL TRANSLATION OF MARBLE IS 'GLISTENING STONE'. THE MATERIAL HAS A LUXURIOUS, ALMOST REGAL LOOK AND FEEL. MARBLE HOWEVER, IS EXTREMELY POROUS, MEANING WATER AND OTHER LIQUIDS CAN EASILY SEEP INTO THE SURFACE. THIS DISADVANTAGE ASSOCIATED WITH NATURAL MARBLE CAN RESULT IN STAINING. THE MATERIAL IS ALSO EXTREMELY PRONE TO SCRATCHES AND REQUIRES REGULAR MAINTENANCE.

NOBLESSE RANGE

Together with Bram Bollen, we went on a quest to create 'the perfect marble surface'. An exceptionally refined and super-strong surface with all the correct product attributes, plus ease of maintenance and a divinely beautiful structure. By selecting a new color base and using a new D-Quartz formulation, we were able to develop a range of marble which exceeds any natural version in look & feel. Sober and refined vein patterns distinguish our range, which we lovingly name Noblesse. Simply because we feel obliged to improve nature in a sustainable way. Using the finest minimalistic marble design, these surface excel in more distinctive interiors.

FINISHES & COLORS

OUR COLOR RANGE IS AS EXTENSIVE AS THE RANGE OF USES FOR OUR SURFACES. THANKS TO AN INGENUOUS COMPOSITION OF FORMULATIONS USING QUARTZ, RESINS AND COLOR PIGMENTS, OUR COLOR SPECTRUM IS EXTENSIVE.

POLI A high-gloss finish tightly sealed against the penetration of stains. A radiant finish with an impeccable linear reflection.

VELVET The luxurious matte appearance of this finish ensures aesthetic value and provides exceptional density, depth of color and significantly improved ease of maintenance. The luxurious look and feel of our velvet finish evokes a relaxed and natural feel. This finish does not require any additional surface protection (stain stop/protector).

ANTICATO This finish has a textured surface due to a special treatment. The robust look can be adapted easily for any environment. This specific finish makes for an impressive anti-slip surface, and opens up a multitude of decorative possibilities. This finish requires some treatment (protector), by a professional installer, allowing for easier daily maintenance.
