

# The New Classtone / Calacatta Roma

PRODUCT DATA SHEET

# The New Classtone / Calacatta Roma

## Description

Inspired by the splendour of Ancient Rome, this model dazzles with the combination of ochre and grey veins on a white background, which lends sobriety and finesse to this take on Carrara marble.

Finishes	Thickness
Silk	12mm
	20mm
	6mm

## Recommendations for use based on the thickness

### 12mm

The recommended thickness for tables and countertops in kitchens and bathrooms.

### 20mm

The maximum thickness is appropriate for tables and countertops in kitchens and bathrooms.

### 6mm

The most versatile thickness. It can be used for indoor and outdoor cladding. It is also appropriate for both outdoor and indoor flooring as well as for furniture and cupboards.

For more information on the thickness indicated for each finish, check with your professional.
